Firefly Lighting's Range of Landscape products make light work of illuminating various outdoor environments. We created this range to sustain Australia's extreme weather conditions so the product lasts well beyond its warranty period and leaves our customers with a smile from ear to ear. All our landscape products are IP rated, and come standard with anti-glare honeycombs. Simply connect into existing 24V DC transformers, and you're good to go!

GLARE CONTROL

Honey Comb Louvre

Minimises glare by reducing the angle of light source visibility.

A tight distribution of cells creates a "visual light shield", with the mesh restricting stray light spill and directing the illumination.
